

## LST Securing Checklist S-AB-P-101 Rev A

### Intent

This checklist controls the transition to temporary (over-night / week-end) securing of the Laser Sources including the transition from Watch Condition 2 to Watch Condition 1.

### Procedure:

- 
- |          |  |                          |
|----------|--|--------------------------|
| <b>1</b> | Follow instructions from the LSO to shut down the Sources hardware in the order instructed using the appropriate procedures. | <input type="checkbox"/> |
| <hr/>    |  |                          |
| <b>2</b> | Shut off the computer screens and monitors.  | <input type="checkbox"/> |
| <hr/>    |  |                          |
| <b>3</b> | Sign the LSO's Securing Checklist (S-AB-P-084) to indicate that all systems are secure.                                      | <input type="checkbox"/> |
- 

(end of checklist)

**Document Release:**

**S-AB-P-101 LST Securing Checklist**

This document is a component of Vol. VIII OMEGA EP System Shot Operations Manual, Chapter 2, Laser Sources Operating Procedures, S-AB-P-005.

Approval for release of this document into the PDM system was granted by:

- S. Loucks; Director, LLE Engineering Division
- S. Morse; OMEGA EP Project Manager
- J. Edwards; OMEGA EP System Engineer
- J. Puth; OMEGA EP Laser Sources Subsystem Engineer
