R. Sobolewski, C. Stancampiano, and G. Mourou, "Transient Behavior of Very Thin Superconducting Lead Films Illuminated by Picosecond
This report was prepared as an account of work conducted by the Laboratory for Laser Energetics sponsored in part by the Empire State Electric Energy Research Corporation (ESEERCO), Exxon Research and Engineering Company (EXXON), the General Electric Company (GE), the New York State Energy Research and Development Authority (NYSERDA), Northeast Utilities (NU), the Standard Oil Company (Ohio) (SOHIO), the University of Rochester (U of R), and various governmental agencies. Neither ESEERCO, EXXON, GE, NYSERDA, NU, SOHIO, DOE, the U of R, the government, nor their members or employees, nor any persons acting on their behalf either:

a. Makes any warranty or representation, express or implied with respect to the accuracy, completeness, or usefulness of the information contained in this report, or the use of any information, apparatus, method, or process disclosed in this report may not infringe privately owned rights; or

b. Assumes liability with respect to the use of, or for damages resulting from the use of, any information, apparatus, method or process disclosed in this report.

Results reported in the LLE Review should not be taken as necessarily final results as they represent ongoing research.
