Overview

This document describes how LLE building access is managed, recognizing that the long term impacts of Covid-19 are not yet understood. Modifications to this policy will occur in the future when appropriate.

In the context of this policy,

- “Visitors” typically have an informal connection with LLE, come to LLE infrequently and stay less than 2 days
  - Persons coming to LLE for 1 day or less who are escorted by an LLE Host throughout their visit must be advised by their LLE host of LLE’s current Covid guidelines.
  - “Guest Workers” are often LLE Users, contractors and individuals with a formal connection to LLE, who come to LLE frequently and/or stay more than 2 days

Employees (including persons with LLE Badge-access: staff, UR students, UR faculty, Friends of the University) must:

- Continue to wear a mask if unvaccinated. Masks and physical distancing are no longer required for vaccinated individuals indoors or outdoors
- Use badge to swipe-in
- Enter through East or West lobby if badge is forgotten
  - Sign in, and sign out when departing for the day

Visitors

- VIP visits and all tours will be coordinated by the Director’s office
- Visitors are permitted only if essential to LLE business
  - LLE Host should exhaust “remote” options before planning an on-site visit (e.g., employment pre-screening interviews, training, troubleshooting equipment, sales calls, etc.)
  - Face-to-face meetings are discouraged
- All Visitors are required to complete the LLE Visitor Information Form in advance of their visit to LLE
- Visitors shall report to the West Lobby
- If a receptionist has concerns about admitting someone, call a supervisor before granting access
- Before buzzing anyone in, receptionist will use the intercom to:
• Ask each Visitor to verify their vaccination status. If individual is not willing
to disclose or is not vaccinated, a mask must be donned upon entry
• Redirect persons looking for Imaging Center, etc., without admitting them
  
  • Upon entry, Visitors must:
  • Sign the visitor log sheet
  • Wait in the lobby for their LLE Host
  • Exception: Regular vendors/suppliers may proceed without a Host (e.g.,
    Crickler, Pepsi, Sireness, Crystal Roc, Plant Designs)

Vendors
• Vendor are permitted if essential to an approved activity (e.g. engineering site
  assessment, equipment demonstration, service call, etc.)
• “Cold calls” (unscheduled visits) are not permitted

URMC Employee Pharmacy deliveries will be accepted at the West lobby
• Employee must be available at the time of delivery to personally accept items or they
  will be returned with the courier

US mail, UR Intramural mail, UR Library services
• Receptionist will place outgoing materials in the vestibule each morning
• Delivery staff will leave incoming items in the vestibule, and take outgoing items
• Receptionist must remove all items from the vestibule at end of day

Shipping & Receiving (S&R)
• Deliveries that occur entirely in S&R do not require delivery personnel to sign in/out.
• Unvaccinated delivery personnel are expected to don a mask before entering S&R.
• Redirect delivery personnel needing access beyond S&R to either lobby

Contractors
• Short Term contractors include equipment repair technicians and others who are on-
  site infrequently, typically for <2 days.
  • LLE Host must be with visitor(s) at all times, and ensure they abide by
  University/LLE masking guidelines
• Long Term contractors include those who are permitted unescorted building access,
card-swipe entry permissions, and those who come on a regular basis. They must
follow Guest Worker guidelines (below)

Guest Workers (e.g., external users of the OMEGA and MTW Laser Facilities or other LLE
Laboratories {a.k.a., “Users”}, and long-term contractors)
• See LLE Guest Worker Policy
