

# Verifying appropriate laser protective eyewear using laser safety software — EASY HAZ™

**EASY HAZ™ Basic Web Version.** Their laser hazard analysis software is free, online at

<http://lasersafetyu.kentek.com/easy-haz-laser-hazard-software-basic-web-version/>

- It provides minimal hazard calculations; see restrictions online

**EASY HAZ™ Professional LSO Edition** has extended capabilities and can be found, along with its instructions, at our internal online access

- Only one person at a time can access this software
- Mac users, use Microsoft Remote Desktop.app
- PC users, use the Remote Desktop Connection
- Login to the LLE computer *easyhaz* as *lleguest*; password is *lleguest*
- From the *easyhaz* desktop you can access the **EASY HAZ™** app or the folder in which its instructions reside
